

Case Study: Business Structuring

Case Study Overview

Establishing a Dubai Company Successfully

Helping a UK consultant navigate the complexities of establishing a business in Dubai with **complete tax compliance** and ongoing support from Lanop's expert advisors, ensuring confidence in cross-border operations.

Client Overview

Expanding Business into the Gulf Region

A self-employed business consultant in the UK sought to expand into the Gulf region by establishing a company in Dubai, aiming to serve Middle Eastern clients while maintaining a UK client base.

Challenge

Navigating Overseas Business Registration Complexities

The client faced **uncertainty** regarding how to register a business overseas, concerned about potential double taxation in the UK and the **impact** on available reliefs, requiring expert guidance.

Approach to Business Structuring

Cross-border solutions for UK and UAE

Lanop provided expert advice on cross-border structuring, establishing a Dubai Free Zone entity, ensuring compliance for the UK company, and optimizing tax efficiency through Double Taxation Agreements for seamless operations.

Results

- UAE trade licence, Emirates ID, and bank account approved within three weeks
- Full 0% corporate tax eligibility and UAE tax residency certificate obtained
- Seamless ongoing accounting, VAT filing, and compliance support through Lanop's advisory platform

Client Quote

“Lanop turned what looked like an international maze into a simple, step-by-step process. I now trade confidently in Dubai knowing every box is ticked.”
